**The attached photo shows how some people park their bikes in Canada.**

Beverly and I have been having a wonderful trip starting from San Francisco and then on to Seattle and Vancouver.

We boarded the train for a spell-binding trip through the Canadian Rockies to Banff and then via bus to the Ice Field Parkway where we had a walk on the Glacier in glorious weather.

Later, we photographed black bears close to the highway. We are now on the VIA Rail to Toronto via stopover in Winnipeg. We have a new respect for Vline after seeing the way that private ownership of the rails plays hell with train schedules.

The Canadians are very courteous people particularly on the road. Good bike lanes on main roads.

Melbourne is not the only city with issues of inadequate parking for cycles. I took this photo in Jasper's main street. See you all again around late June or July.

**The following is applicable to all rides.**

(Sunday Leisurely and Fast, Wednesday Leisurely and Fast)

**If the weather is inclement (32+ or significant rain), it is the responsibility of intending riders to check with the ride coordinator**

**NB – this is particularly important when start is distant; the coordinator cannot be expected to drive many kms to the start.**

### **Ghostriders Cycling Group**

Over the past 11 years the Melbourne based **Ghostriders Cycling Group** has put together over 35 overseas cycling adventures with around 400 people from all over Australia now having taken part. These trips have now allowed us to cycle and trek all over the globe. I now want to share the details of what we have planned for next year with your cycling group.

In May 2018 we will be returning to **South America** for another cycling and trekking adventure. We will be visiting **Peru, Brazil,**

**Argentina and Uruguay** over a 4 week period. The main highlight will be walking the **Inca Trail to Machu Picchu**, but we will also be enjoying some of the **most unforgettable cycling experiences that you could ever imagine**. This trip is intended for those who aren't daunted by a true adventure, however it will also be fully supported with a "sag wagon" for those who are unable or unwilling to ride any of the bike sections. I wondered if this type of challenge would be of interest to any of your riders ?

I have attached a brief brochure giving some more details of this trip and I would appreciate it if you could share this with your riders. There will be an **Information Meeting on Saturday 22<sup>nd</sup> of April** and that is when I will be able to share all the details, dates and pricing. If anyone wants to come along to the meeting they need to email or ring me to let me know how many seats they will need.

The trip itself will be restricted to 12 people, so it will definitely be a small group and spaces are likely to fill quickly.

Life was meant to be a real adventure, so don't let it pass you by.
